

By participating in Crypto-Mining you buy a share of the mining capacity (mining rights). You receive a mining profit generated by your capacity share of mining rights purchased. You receive a payout regardless of market fluctuations. We do not speculate in cryptocurrencies. We produce cryptocurrencies (mine them) and sell the mining profit daily on an exchange for fiat currencies (USD, GBP, EUR, CHF). You have 5 mining plans to choose from:

Plan A – Flexible-payout:

A one-time repayment of mining capacity purchase amount plus payment of mining profits at the end of the holding period chosen, usually one year. The advantage of this plan is you can choose to buy additional mining capacity or terminate at any time.

You pay \$ 5,000.00 and receive \$ 6,250.00 at the end one year. This is a mining profit of \$ 1,250.00 which is 25% more than what you purchased. In case of early termination, mining profits are paid pro rata. All payouts are made within 1 week.

Plan A Year	Mining capacity share in \$	Mining profit	Repayment of mining capacity plus profit	Annual mining yield %
Final payment after 1 year	\$ 5000.00	\$ 1250.00	\$ 6250.00	25.0%
Totally paid	\$ 5000.00	Totally received	\$ 6250.00	

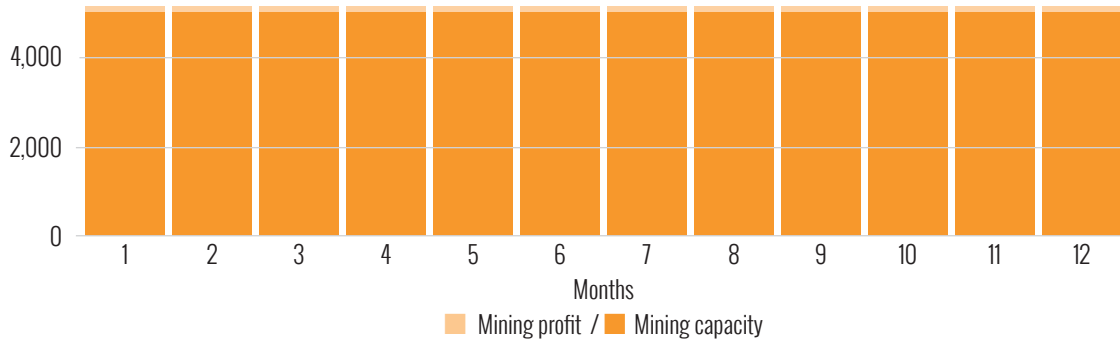

Plan B – Monthly-payout:

A monthly payment of mining profits and a separate repayment of the mining capacity purchase amount at the end one year. The advantage of this plan is you receive monthly payouts.

You pay \$ 5,000.00 and receive a monthly payout of your mining profit of \$ 104.17 plus, at the end of one year, you receive back your original mining capacity share purchase amount of \$ 5,000.00.

Plan B Months	Mining capacity share in \$	Repayment of mining capacity	Payment of mining profit	Monthly mining yield %
1	\$ 5000.00	\$ 0.00	\$ 104.17	2.08%
⋮				
12	\$ 5000.00	\$ 0.00	\$ 104.17	2.08%
Final payment after 1 year	\$ 0.00	\$ 5000.00	\$ 0.00	25.0%
Totally paid	\$ 5000.00	Totally received	\$ 6250.00	

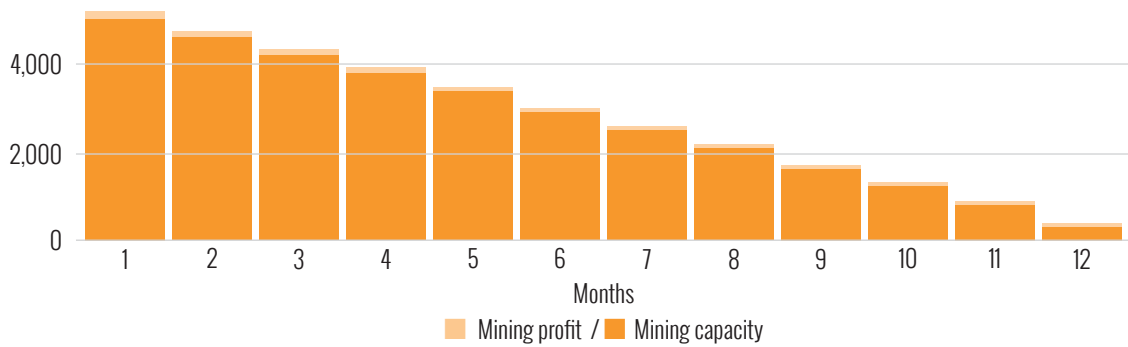

Plan C – Amortized-payout:

A monthly repayment of the amortized portion of the mining capacity purchased plus monthly mining profits over twelve months. The advantage of this plan is you receive back a monthly portion of your purchase amount plus monthly mining profits.

You pay \$ 5,000.00 and receive part of your mining capacity purchase amount plus mining profits for 12 months. This plan generates a monthly payout and a gradual repayment of your mining capacity purchase over one year. Your mining capacity share is reduced by 1/12th each month.

Each month you receive the amount indicated in the payout column below. After one year, you will have received your mining capacity purchased amount plus mining profits.

Plan C Months	Mining capacity share in \$	Repayment portion mining capacity	Mining profit	Repayment of mining capacity plus profit	Monthly mining yield %
1	\$ 5000.00	\$ 416.67	\$ 104.17	\$ 520.83	2.08%
⋮					
12	\$ 416.67	\$ 416.67	\$ 8.68	\$ 425.35	2.08%
All received	\$ 0.00	\$ 0.00	\$ 0.00	\$ 0.00	25.0%
Totally paid	\$ 5000.00		Totally received	\$ 5677.08	

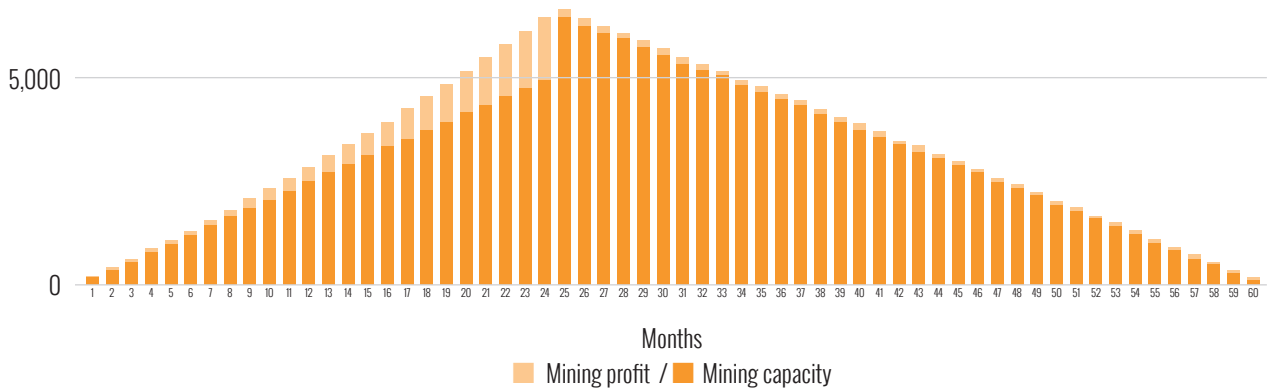

Plan D – By installments:

Monthly payments of the booked miner over a period of two years with the repayments of the amortized portion of the acquired mining rights plus profit over a period of 36 months. The benefit of this plan is that you are depositing in small amounts and then receive instalments of your purchase plus profits every month, i.e. deposits over two years with payouts over 3 years; Total duration 5 years.

This Plan constitutes a «saving scheme» which allows you to buy mining rights over a certain time period. Without strain on your purse strings, this enables you to buy into a larger miner with a higher profit and then to enjoy the pay-back of your investment plus yields. We book you the rate of \$ 208.33 per month and thus the higher mining rights in your account. Each month sees your mining rights grow and your profits accumulate (compound interest effect). Once the two years monthly payments are up, you can lean back and relax and enjoy the payouts of your total return as well as the investments you made.

Check out the figures of this attractive Plan in the PDF document Midi-Miner Plan D.

Plan D Months	Mining capacity share in \$	Reinvested mining profits	Mining capacity plus profits	Repayment of mining capacity plus profit	Monthly mining yield %
1	\$ 208.33	\$ 4.34	\$ 212.67	\$ 0.00	2.08%
⋮					
24	\$ 6402.73	\$ 133.39	\$ 6536.12	\$ 0.00	2.08%

Plan D Months	Mining capacity share in \$	Repayment portion mining capacity	Mining profit	Repayment of mining capacity plus profit	Monthly mining yield %
25	\$ 6536.12	\$ 181.56	\$ 136.17	\$ 317.73	2.08%
⋮					
60	\$ 181.56	\$ 181.56	\$ 3.78	\$ 185.34	2.08%
All received	\$ 0.00	\$ 0.00	\$ 0.00	\$ 0.00	25.0%
Total paid over 2 years		\$ 5000.00	Total received over 3 years		\$ 9055.25

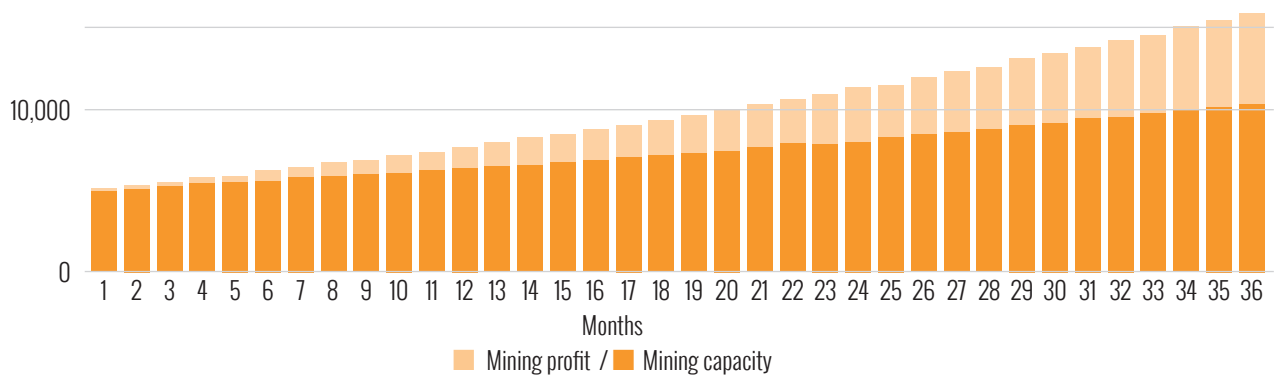

Plan E – Compound-payout:

A reinvestment of monthly mining profits over 36 months. Repayment of the mining capacity purchased plus payout of compounded monthly profits at the end of 3 years. The advantage of this plan is the power of monthly compounding.

This is by far the most profitable plan. Every month, your mining profits are automatically reinvested and added to your original mining capacity purchase amount. This creates a larger mining capacity base for you for more mining profits. However, with this plan, you receive a one-time payout of your mining capacity and reinvested mining profits only at the end of 3 years.

Your initial \$ 5,000.00 mining capacity purchase will grow to \$ 10,503.75 over 3 years. With this plan, your average annual mining yield is 36.7% with a one-time payout of \$ 10,503.75.

For simplicity, only the first and the last month are shown in the table below. Figures for each month are available in the Midi-Miner Plan E PDF document.

Plan E Months	Mining capacity share in \$	Reinvested mining profits	Mining capacity plus profits	Monthly mining yield %
1	\$ 5000.00	\$ 104.17	\$ 5104.17	2.08%
⋮				
36	\$ 10289.39	\$ 214.36	\$ 10503.75	2.08%
Final payment after 3 years	\$ 10503.75	\$ 0.00	110.1%	Average = 36.7% p.a.
Totally paid	\$ 5000.00	Totally received	\$ 10503.75	

Plan F – Free-payout:

A full month free mining from the date of sign up in our crypto mine.
This means a disbursement from us to you of \$10.00 paid out after one month.
